PRESIDENT’S COLUMN

We should all thank Carol Thomas and others for the special effort they again made this year through our Association to promote the presence of the ancient field at the annual meeting of the American Historical Association. Small this presence may be, but it is still visible and lively, and we should surely be committed to maintaining it at no less than the present level. Many of us, after all, hold positions in Departments or Schools of History, and thus want to see our field represented at the largest annual meeting of historians in North America, especially as interviews for positions are also held here.

Just how best to promote the ancient field’s presence, however, is a problem that is about to become more taxing from 2001 onwards when AHA and APA will again be meeting more or less simultaneously, and in the first instance (as it happens) on opposite sides of the continent, in Boston and San Diego respectively. Most of us who care to attend these meetings opt for APA’s for the justifiable reason that it has more to offer us (jointly with AIA), and I doubt whether this pattern will change significantly within the immediate future. Naturally, on the other hand, some of our members prefer AHA, and some may alternate between APA and AHA in different years. The challenge now for the Association of Ancient Historians is how best to consolidate, and preferably strengthen, the presence of our field at AHA. I welcome all views and suggestions on this issue, and hope we may be able to find an opportunity for informal discussion of it at our meeting this May in Madison, WI.

In any event, do please consider coming to Madison; the program is full and wide-ranging, the location highly attractive. I look forward to seeing you there.

Richard Talbert

Carl A. Roebuck

Our colleague and long-time member, Carl Roebuck, died of pneumonia complicated by asthma on December 30, 1999. He was 85 years old. Canadian-born, Carl studied at the University of Toronto where he earned both his B.A. and M.A. degrees. Interest in archaeology that developed during his undergraduate years continued in Master’s work with Homer Thompson. That association led to four years of work (1937-1940) at the American School of Classical Studies in Athens. In addition to his own dissertation research, these years found him excavating at Corinth and on the North Slope of the Acropolis, in the company of Oscar Broneer. Carl’s doctoral study at the University of Chicago was guided by J.A.O. Larsen; his Ph.D. was awarded in 1941. His University service began at Dalhousie University (1943-48), brought him back to the University of Chicago (1948 - 1952) and then drew him to Northwestern University (1952 - 1979). On retirement, Carl and his wife Mary moved to their home on Orcas Island in the San Juan group of islands off the coast of Washington.

Carl’s scholarship is evidence of the force of these early associations. Corinth, Athens and Ionia in the preclassical period receive much of his attention. His writing is permeated by a recognition of the significance of archaeological evidence in historical study, the interplay between economy and society, and the nature of the Greek polis especially in its inchoate form. Perhaps best known of his scholarly publications is the monograph Ionian Trade and Colonization (Archaeological Institute of America, 1959). His abiding interest in the economy of early Greece brought the invitation to contribute the chapter on trade in Archaic Greek Society to the second edition of the Cambridge Ancient History, Volume 4 (1988).

But his focus was wide: his The World of Ancient Times (Scribner’s, 1966) has been a standard text for decades; The Muses at Work (MIT, 1969), which he edited, ranges over Greek and Roman activities; “The Settlements of Philip II with the Greek States in 338B.C.” Classical Philology 43 (1948) 73-92 treats the polis world in its altered context created by the Macedonian success. The article is one of ten essays published as Economy and Society in the Early Greek World: Collected Essays by Carl Roebuck (Ares Publishers, 1979).

The quality of Carl Roebuck’s work has been recognized throughout his career: he was a Guggenheim Fellow in 1953-4, the President’s Fellow of Northwestern University in 1962-3, and National Endowment for the Humanities Senior Fellow in 1968-9.

The years at the American School affected Carl’s life in a more personal way as well. At Corinth he met Mary Campbell then a student at the American School and also engaged in excavation at Corinth. Her Ph.D. in archaeology was awarded by Bryn Mawr. They married in 1947. Their life together joined common interests in archaeology, evidenced by the co-authored “A Prize Aryballos,” Hesperia 24 (1955) 158-163; included regular attendance at conferences and annual meetings; and, more recently, demanded protecting their Orcas garden from the depredations of rabbits and deer.

Those privileged to have known the Roebucks and to have studied with Carl will recall the meticulous care they both gave to their work and that Carl expected of his students. Their love of Greece was deep; until recently they visited Greece, often simply to see their favorite sites again. They took joy in their island retreat with its vast library. Since ferry travel to the mainland made for a relatively easy commute they often attended lectures and special meetings in Seattle.

Carl will be remembered as a pioneer in combining physical and literary evidence, examining the interaction between all basic aspects of a society, and digging to the roots of developments. His success and his calm integrity made him a model that many now follow.

from graduate students and junior faculty. (2) Andrew Wolpert reviewed the plans for the Madison meeting in 2000 and distributed a call for papers.

**New Business:** (1) The Secretary-Treasurer announced that Richard Talbert was the only nominee for President. MSP (Lauritsen, Frank) to dispense with the election and elect Talbert by acclamation. Passed unanimously. (2) MSP (Dintrone, Mitchell) to endorse the AAUP Statement on Academic Freedom and Tenure. There was spirited debate. MacMullen and others supported the motion as an affirmation of academic freedom. Gabbert and others opposed it because it implied AAH support for the AAUP itself. Original motion passed on a voice vote, not unanimously. (3) Briggs Twyman extended an invitation to meet in 2001 at Texas Tech. MSP (Twyman, Adams) to accept. Twyman said that a call for papers would be issued shortly. (4) Jennifer Roberts extended an invitation for a post-banquet party.
